

2019 – 2020 CERTIFIED SEPTIC INSTALLER LIST

The North Tri-county Health District On-site Sewage Regulation 01-2007 states that on-site sewage systems must be installed by the resident owner of the property or an installer certified by NETCHD. This includes any excavation work in regards to the installation of the on-site sewage system. In addition, on-site sewage disposal systems must be designed by the resident home owner or a Washington State licensed engineer or designer, through the Board of Registration for the Professional Engineers & Land Surveyors. To determine if an installer on this list is also a licensed designer, contact the Washington State Department of Licensing at 360-664-1575 or www.dol.wa.gov.

Business	Owners/Operators	Office Location	Phone
